SUMMARY

Full Stack Developer (React & Laravel) with 2+ years of experience building scalable web applications using **React.js, Laravel, and RESTful APIs**. Skilled in **MySQL optimization, Eloquent ORM, and API integration** with a strong focus on **performance and secure architecture**. Proficient in **MVC development and Git**, delivering clean, maintainable, and user-centric solutions.

SKILLS

Languages & Frameworks: PHP, JavaScript (ES6+), Laravel, React.js

Frontend & Backend: HTML5, CSS3, Tailwind CSS, Bootstrap, RESTful APIs, MVC Architecture, Eloquent ORM, AJAX, Authentication

Database & Tools: MySQL (Optimization), PostgreSQL, Git, VS Code, API Integration

WORK EXPERIENCE

Nexer Tech Solutions

Apr 2024 - Present

Software Developer

- Developed scalable web applications using **React.js (Hooks, component-based architecture)**, Tailwind CSS, Laravel, MySQL and PostgreSQL.
- Built dynamic and reusable **React components**, managing state and side effects with **React Hooks (useState, useEffect)**.
- Implemented secure user authentication and optimized data management workflows.
- Designed and developed **responsive, interactive UI** based on wireframes and design mockups.
- Developed and integrated **RESTful APIs using Laravel**, ensuring seamless frontend-backend communication.
- Optimized application performance and **reduced response time through efficient backend queries**.
- Utilized **Git for version control** and VS Code to maintain clean, efficient, and well-structured code.

PROJECTS

Video Analytics Solutions

Technologies: FastAPI (Python), React.js, YOLO, OpenCV, PostgreSQL, RTSP

- Optimized system to support 250+ camera streams and **21+ AI scenarios**.
- Built **React.js** dashboard and FastAPI backend services.
- Integrated **RTSP** camera streams with real-time AI inference.
- Developed an **AI-powered video analytics** platform for real-time surveillance and monitoring.

Tecmuo IT Solutions

Technologies: HTML, CSS, JavaScript, PHP, Laravel

- Developed a **Laravel 12-based e-commerce system** with secure authentication and **role-based access control (RBAC)**.
- Built dynamic **CRUD modules** for Brands, Categories, Products, incorporating **image uploads** and automated pricing logic.
- Designed a scalable architecture using **Blade, Tailwind CSS, AJAX, and Eloquent ORM**, adhering to **MVC best practices**.

Biometric Attendance System

Technologies: Laravel, Tailwindcss

- Developed a **web-based attendance system** integrated with biometric devices for accurate time tracking.
- Implemented dynamic **CRUD modules** for employees, shifts, leave types, and attendance records.
- Automated **attendance processing and reporting**, generating real-time summaries and insights.
- Built an interactive **dashboard using AJAX and Laravel MVC architecture** for improved user experience.

Complaint Management System (CMS)

- Developed an **end-to-end complaint lifecycle system** with role-based access, reducing manual effort by **60%**.
- Implemented **SLA tracking, priority queues, and automated workflows** with real-time notifications.
- Built **audit logs and activity tracking** to ensure compliance and system traceability.
- Designed an **analytics dashboard** with performance metrics and actionable reporting insights.

A One Home Textile Group, <https://aohtgroup.com/>

- Developed a **Complaint & Inventory Management System** with secure **role-based access (Admin/User)**.
- Built dynamic **real-time dashboards** featuring filtering, tracking, and interactive charts for complaints and inventory.
- Optimized system performance through the use of **efficient queries, Gzip compression, and browser caching** to manage high concurrency.

EDUCATION

BSC Computer Engineering

BZU, Multan, CGPA: 3.30

Oct 2020 - Aug 2024
